Stirling Civil Engineering Limited

The Company's presence in East Africa is continuous since 1948 with stable organizations and strongly rooted in local industry with fully autonomous managerial staff.

Further advantage is the Company own offices, logistic bases and equipment, in particular in Uganda Stirling has a complete fleet of earthmoving machines, 2 crushing plant and 1 asphalt plant.

The vast experience accumulated over decades of activity has placed Stirling amongst the top international construction companies, ensuring to its Clients compliance with all technical, economic, logistic and managerial contractual requirements.

## WORKS

- **ROADS – BRIDGES**  
The Company since the 50's is leader for projects of transportation infrastructures.
- **AIRPORTS**  
The Company has completed important international projects by using its own know-how, professional experience and highly qualified personnel.
- **DAMS – WATER WORKS**  
The Company carried out several projects for earthworks and concrete works on dams, irrigation and water treatment plants.

## LOGISTICS

- **MUKONO, Uganda**  
Operating base on 3.5 hectares, with the administrative department, a completely equipped workshop, warehouse and residential structures for the staff, 7.5 hectares stone quarry.
- **KAMPALA, Uganda**  
Head Office
